How can PSHSA help my organization improve health and safety?

PSHSA can help organizations improve health and safety by providing expert guidance, training, consulting, audits, programs, assessment tools, and resources focused on common workplace hazards and priority areas such as workplace violence, mental health, musculoskeletal disorders (MSD), slips, trips and falls (STF), wellbeing, and mandatory compliance.

Get help from our expert team of consultants.

Does PSHSA offer a sector-specific Joint Health and Safety Committee (JHSC) certification?

Yes. PSHSA offers sector-specific JHSC certification training for part two of the courses. We offer tailored part 2 training for all workplaces, education, government, healthcare, and public safety sectors. This helps organizations address hazards and examples that are more relevant to their work environments.

Explore our available JHSC Certification Part 2 sector-specific courses.

How do I subscribe to the PSHSA newsletters?

You can subscribe to PSHSA updates by clicking here. We offer three subscription options: Our health and safety anywhere newsletter, training updates, and PSHSA news updates.
